

Mackworth

Easy Fit Gantry System

The Mackworth Easy Fit Gantry System ‘pressure fits’ between the floor and a structurally suitable ceiling at a maximum height of 7 to 10 feet (2.1-2.8 m), or, providing a stable, reliable lift track where a fixed ceiling track is not available.

When used in conjunction with a portable lift, such as the Mackworth CP440, the system is perfect for home care, allowing users to extend the time they remain in their own home by years.

It’s a cost effective solution that is simple to assemble - without the need for tools, has a safe working load of 440lb (200kg) and caters for the requirements of both the patient and caregiver, providing a safe and dignified experience for both.

The Mackworth Easy Fit consists of 7 main pieces that combine to make a sturdy semi-permanent structure that can be used without any structural alterations to the building.

Features

- High-strength, lightweight aluminium
- 440lb (200kg) max load
- 6.2-9.35ft (1.9-2.7m) adjustable track length
- 6.9-8.2ft (2-2.75m) adjustable height
- Built-in easy-slide trolley
- Pressure fit ratchet system (floor to ceiling)
- Pressure fit safety gauge
- Anti-slip rubber pads on top and bottom plates
- Bubble level on uprights
- Safety latch to prevent uprights retracting
- Securing Bolts and lynch pins
- Two (2) year warranty

Benefits

- Extends the time people can stay in their own homes by years
- No structural alterations required to the room or ceiling (ceiling must be structurally sound)
- Complete safety, dignity and comfort for the client and carer.
- Compatible with Mackworth CP440 Fixed/Portable Ceiling Lift
- Compatible with other portable lifts with QRS (Quick Release System) connectors
- Can be used to lift and transfer individuals from a bed, chair, wheelchair or similar
- Easy to assemble, can be assembled by one person without tools (2 person assembly is recommended)
